

**Wees bedag!** – Dit het onder ons aandag gekom dat daar persone is wat inwoners nader onder die voorwendsel dat hulle namens die Munisipaliteit handel en voorgee om elektrisiteitsmeters te installeer wat bedoel is om kragverbruik te verminder. Hulle beweer verder dat deelnemers aan die 'projek' vir 'n afslag op eiendomsbelasting sal kwalifiseer.

Die persone is na bewering in diens van 'n firma genaamd *Global Energy* en verhaal ruim deposito's van hul goedgeelowige kliënte.

Let op dat hierdie oënskynlik 'n goeddeurdagte 'scam' is, en dat die Munisipaliteit hoegenaamd nie in sy area met so 'n projek doenig of daarby betrokke is nie. Indien u reeds 'n slagoffer was, of moontlik op soortgelyke wyse genader is, meld onmiddellik die saak by die SA Polisie diens aan en skakel met Pierre le Roux, ons interne ouditeur, by 022 487 9400 om die besonderhede daarvan deur te gee.

**Be aware!** – It was brought to our attention that residents are being contacted by persons under the pretext that they act on behalf of the Municipality and claim to be installing electricity meters aimed at curbing electricity consumption. They furthermore allege that participants in the 'project' will qualify for a rebate on property rates.

These persons are allegedly in the employ of a firm called *Global Energy* and recover huge deposits from their credulous clients.

Please note that this is apparently a cleverly devised scam, and that the Municipality has not at all initiated or is involved with any such project. If you already fell victim or have been approached in a similar manner, we kindly request that you immediately report the case to the SA Polices Services and contact Pierre le Roux, our internal auditor, at 022 487 9400 to provide all the particulars.

**MUNISIPALE BESTUURDER / MUNICIPAL MANAGER**
